Subject: NC Senior Living Assoc PPE Grant

Good morning,

The North Carolina Senior Living Association has been awarded a grant to provide Family Care Homes and Assisted Living facilities across North Carolina with much needed PPE supplies. We as a company are happy to be distributing these supplies to your facilities on the behalf of the association. In the coming weeks, will be distributing these supplies to each building in two separate shipments beginning at the end of August. All supplies provided have been paid for in full by this grant.

To facilitate the logistics of this, we will need the following information for each of your buildings:

1. Two persons of contact with a phone number and email address for each.
2. Delivery Address of your facility with preferred drop off location.

If you have any questions or would like any further information, please don't hesitate to reach out to me directly, via the contact information listed below.

Best regards,

Charles Antwi
